

วิธีการติดตั้ง zentcart

1. เข้าไปที่ www.bizqsoft.com:2222 (สมมติว่าชื่อเว็บเราคือ bizqsoft.com นะครับ) แล้ว Login เพื่อเข้าไปที่ Direct Admin ซึ่งเป็น Control Panel ของเราเมื่อเข้ามาแล้วเราก็ไปสร้างฐานข้อมูลขึ้นมาเพื่อใช้ในการ install zentcart โดยไปที่เมนู MySQL Management

- 1.1 เมื่อเข้ามาแล้วก็คลิกที่ Create new Database เพื่อสร้างฐานข้อมูล แล้วอย่าลืมจำหรือจด ชื่อฐานข้อมูล ชื่อผู้ใช้และรหัสผ่านที่เราตั้งตอนสร้างเอาไว้ด้วยนะ

2. อัปโหลดไฟล์ทั้งหมดที่เราได้แตกเอาไว้ ซึ่งจะได้เป็นโฟลเดอร์ zen-cart-v1.5.3-07042014 (ชื่อโฟลเดอร์อาจจะไม่เหมือนกับตัวอย่างก็ได้นะ) เราจะอัปไฟล์ในโฟลเดอร์นี้ทั้งหมดไปที่โฮสต์ของเรา ในที่นี้ใช้โปรแกรม Filezilla ในการอัปโหลดไฟล์ไปยังโฮสต์ซึ่งเป็นโปรแกรมฟรี

3. เมื่อเราเตรียมทุกอย่างไว้พร้อมแล้วก็เริ่มการ install กันเลยโดยเข้าไปที่เว็บของเราในที่นี้สมมติว่าชื่อ www.bizqsoft.com เราก็เปิดเว็บเบราว์เซอร์พิมพ์ URL ของเว็บเราไปก็จะเป็นดังรูปด้านล่างนี้ ให้เลือกที่ข้อ 2. Run `zc_install/index.php` via your browser
- URL อาจจะมีใส่ `/install` ด้วยนะถ้าเรียก URL ชื่อเว็บแล้วมันไม่สามารถติดตั้งได้

mes to be read.

Or the `configure.php` files could be missing altogether.

Or your hosting company has recently changed the server's PHP configuration (or upgraded its version) then they may have broken things as well.

See the [Online FAQ and Tutorials](#) area on the Zen Cart® website for assistance.

3. Additional ***IMPORTANT*** Details: `includes/configure.php` not found

To begin installation ...

1. The [Installation Documentation](#) can be read by clicking here: [Documentation](#)
2. Run `zc_install/index.php` via your browser.
3. The [Online FAQ and Tutorials](#) area on the Zen Cart® website will also be of value if you run into difficulties.

4. ตรงนี้ให้กด “Continue”

The screenshot shows the installation prerequisites screen. On the left is a vertical navigation menu with buttons for Prerequisites, Database Setup, System Setup, Store Setup, Admin Setup, and Finished. The main content area has a heading "Welcome To Zen Cart® - The Art of E-Commerce" and a sub-heading "Designed for Online Merchants". Below this is a paragraph of text describing Zen Cart as a free, user-friendly, open source shopping cart system. A "Continue" button is highlighted with a red box at the bottom left. At the bottom center, there is a copyright notice: "Copyright © 2003-2014 Zen Cart®".

5. ตรงนี้เลือกตามรูปแล้วกด “Continue” ไปเลยครับ

The screenshot shows the license confirmation screen. On the left is a vertical navigation menu with buttons for Welcome, License, Prerequisites, Database Setup, System Setup, Store Setup, Admin Setup, and Finished. The main content area has a heading "Zen Cart® Setup - License Confirmation" and a paragraph of text: "Welcome to the setup program for Zen Cart® v1.5.3 release. Please confirm your acceptance of the license terms." Below this is a scrollable window titled "The GNU General Public License (GPL) Version 2, June 1991". The scrollable window contains the text of the license, including the preamble. Below the scrollable window are two radio button options: "I have read and agree to abide by the Terms and Conditions as stated above." (which is selected and highlighted with a red box) and "I have read and do not agree to abide by the Terms and Conditions as stated above." Below these options is a "Continue" button, also highlighted with a red box.

6. ตรงนี้จะเป็นการตรวจสอบ Server ของเราก่อนจะรับหรือไม่ แล้วกดที่ install

✓ **Apache .htaccess Support = ON**

View PHPINFO for your server

Other System Information (For Reference Only)

The following info does not necessarily indicate any problem or configuration issue. It is simply for the sake of displaying it in an easy-to-find location.

PHP include_path = ./usr/local/php5/lib/php
PHP SMTP destination = localhost
PHP sendmail path = /usr/sbin/sendmail -t -i
PHP sendmail 'from' =

! **PHP open_basedir restrictions** = /home/bizqsoft/:/tmp:/var/tmp
! **PHP Output Buffering (gzip)** = OFF
✓ **PHP XML Support** = ON
✓ **PHP Session.Save_Path** = /home/bizqsoft/domains/bizqsoft.com/public_html/zencart/cache -->Writeable

File and Folder Permissions

In order for the installer to store the setup information you provide in the following pages, the configure.php files shown below need to be "writable".

✓ **includes/configure.php** = Writeable
✓ **admin/includes/configure.php** = Writeable

In order for many Zen Cart® administrative and day-to-day functions to work properly, You need to mark several files/folders "Writeable". The following is a list of folders which need to be "read-write", along with recommended CHMOD settings. Please correct these settings before continuing installation. Refresh this page in your browser to re-check settings.

Some hosts may not allow you to set CHMOD 777, but only 666. Start with the higher setting first, and switch to lower values if required.

✓ **cache** = OK
✓ **images** = OK
✓ **includes/languages/english/html_includes** = OK
✓ **logs** = OK
✓ **media** = OK
✓ **pub** = OK
✓ **admin/backups** = OK
✓ **admin/images/graphs** = OK

Ready to Install? (This will wipe any existing data. You are NOT in Upgrade mode!!!)

Install **Re-Check**

7. ตรงนี้ก็ได้ใส่ข้อมูลพวก database ที่เราได้สร้างไว้ แล้วกด Save Database Settings

Welcome
License
Prerequisites
Database Setup
System Setup
Store Setup
Admin Setup
Finished

:: Zen Cart® Setup - Database Setup

Next we need to know some information on your database settings. Please carefully enter each setting in the appropriate box and press *Save Database Settings* to continue.'

Database Information

Database Character Set / Collation
Choose the database collation to be used. [more info...](#)

Database Host
What is the database host? The database host can be in the form of a host name, such as 'db1.myserver.com', or as an IP-address, such as '192.168.0.1'. [more info...](#)

Database Username
What is the username used to connect to the database? An example username is 'root'. [more info...](#)

Database Password
What is the password used to connect to the database? The password is used together with the username, which forms your database user account. [more info...](#)

Database Name
What is the name of the database used to hold the data? An example database name is 'zencart' or 'myaccount_zencart'. [more info...](#)

Database - OPTIONAL Settings

It is recommended to leave these settings as-is unless you have a specific reason for altering them.

Store Identifier (Table-Prefix)
What is the prefix you would like used for database tables? Example: zen_ Leave empty if no prefix is needed.
You can use prefixes to allow more than one store to share the same database. [more info...](#)

SQL Cache Method
Select the method to use for SQL caching. [more info...](#)

Session/SQL Cache Directory
Enter the directory to use for file-based caching. [more info...](#)

8. ตรงนี้กด Save System Settings ไปครับ

If your SSL certificate is already working, choose your SSL settings below.
DO NOT enable SSL here if you do not already have SSL enabled on your hosting account.
If you enable SSL but the SSL address you provide does not work, you will not be able to access your admin site nor log in to your store. You can activate SSL later by editing settings in your configure.php file.

Enable SSL
Would you like to enable Secure Sockets Layer in Customer area? YES NO
Leave this set to NO unless you're SURE you have SSL working. [more info...](#)

Enable SSL in Admin Area
Would you like to enable Secure Sockets Layer for Admin areas? YES NO
Leave this set to NO unless you're SURE you have SSL working. [more info...](#)

9. ตรงนี้เป็นส่วนของการตั้งค่าเกี่ยวกับ Shop ของเราครับตั้งแล้วก็กด Save Store Setting

located in? [more info...](#)

Store Zone
What zone is your Zen Cart® store located in? [more info...](#)

Store Address
What is the address of your Zen Cart® store? This address will be used on printable documents and displayed online. [more info...](#)

Default Language
Please select your default language? [more info...](#)

Default Currency
Please select your default currency? [more info...](#)

Demo Information

Store Demo
Would you like to install the Zen Cart® demonstration categories and products? YES NO
[more info...](#)

10. ตรงนี้ใส่ข้อมูลของ admin ครบใส่เสร็จก็กด Save Admin Setting ไปครับ

info...

Confirm temporary Admin Password
Re-enter the temporary password. [more info...](#)

Administrator's Email
Enter the email address to be used for your Zen Cart® administrator account. This will be used for testing newsletter emails and for sending password resets, etc. [more info...](#)

Upgrade Detection

Check for Zen Cart® updates when logging into Admin
This will attempt to talk to the live Zen Cart® versioning server to determine if an upgrade is available or not. If an update is available, a message will appear in admin. It will NOT automatically APPLY any upgrades.
You can override this later in Admin->Config->My Store->Check if version update is available.

11. พอมาถึงตรงนี้จะมาให้เลือกครับว่าจะเข้าไปที่ไหนคือไปที่ส่วนควบคุมเว็บของเราหรือ หน้าเว็บของเรา ในตัวอย่างผมลองเข้าไปที่ส่วนควบคุม

section.

ADDITIONAL READING

The [Zen Cart® Wiki](#) is a helpful place to find tips and tricks and general use information.

We're glad you chose Zen Cart® to be your e-Commerce solution!

[Visit us online at www.zen-cart.com](#)

Press the *Store* button below to test out your store or press the *Admin* button to begin customizing your store.

12. พอเข้ามามันจะแจ้งให้ลบโฟลเดอร์ install กับเปลี่ยนชื่อโฟลเดอร์ admin เป็นอย่างอื่นครับเพื่อความปลอดภัย

Warning!

Warning: You cannot access the admin until you have

- deleted the `zc_install` folder.
(Use your FTP program or your hosting control panel.)
- renamed the admin folder.
[Help for renaming the admin folder can be found here](#)

Then, to access your admin area, type the admin URL into your browser, ie: http://www.your_site.com/YourAdminFolder/
